

Hike #401

O.T.P. HIKE CHUMASH/ROCKY PEAK

DEC. 3,1997

Roland Bassett Leader

THE HIKE: We will depart from Hummingbird Creek Trailhead and proceed to Rocky Peak, then on to Chumash Trailhead(see attached map).

THE PLAN: As planned, the hike requires a shuttle. However, if the rabbits(you know who you are)so choose, I think it is possible that a way can be found to follow Flanagan Drive back to Yosemite and then along the freeway back to where we started. This extra excursion will add about 2.5 miles to the hike. I intend to beg and plead with the Valleyites(since it is such a short drive for us)to not carpool and to park at the Chumash Trailhead so that they can shuttle us back to where we started.

DIRECTIONS: Take the 118 Freeway westbound and exit on Kuehner Drive, turn right and park on the west side of the road. You are there!

	TH = TRAILHEAD L = LOWER U = UPPE	Elev. Diff.
CHUMASH TH L.	CHUMASH TH U.	2.5 MI. N.E. 1100 ft.
HUMMINGBIRD TH L.	HUMMINGBIRD TH U.	2.3 MI. S.E. 1000 ft.
