Hike July 24, 2002

Icehouse Chapman Loop

Hike Leader: Wolfgang Jahn

Direction to trailhead: From the San Bernardino Freeway (10) exit on Mountain Avenue. Head north on Mountain, which joins Mt. Baldy Road in San Antonio Canyon and winds its way to Mt. Baldy Village. Go 1.5 miles past the village to Icehouse Canyon Resort and park. From I-210 continue on Foothill Blvd. and turn left on Mills Ave., which turns into Mount Baldy Rd.

Detailed description: The trail leads east along the floor of the canyon. After about 1.5 miles, the trail forks. We will take the Chapman (Icehouse) Trail to Cedar Glen Campsite. We continue on the Chapman Trail to where it intersects with the Icehouse Canyon Trail and return on that trail.

The total distance is 8.6 miles and about 2000 feet elevation gain. For those who only go to the Cedar Glen Campsite and back it is 5.6 miles and about 1400 feet gain.
